

Specification

1.19814.0000 Fluoride standard solution traceable to SRM from NIST
NaF in H₂O 1000 mg/l F Certipur®

Specification

Concentration	β (F ⁻)	990 - 1010	mg/l
---------------	---------------------------	------------	------

Determination method: Titration with Lanthannitrate solution
(traceable to NIST SRM 682)
Accuracy of the method: ± 2 mg/l
