

Specification

1.19814.0000 Fluoride standard solution traceable to SRM from NIST NaF in H₂O 1000 mg/l F Certipur®

Specification

Concentration β (F-)

990 - 1010

mg/l

Determination method: Titration with Lanthannitrate solution

(traceable to NIST SRM 682) Accuracy of the method: ± 2 mg/l
