

connectivity assures productivity

with MyMilli-Q™ Remote Care

Experience the peace of mind of assured lab productivity. MyMilli-Q™ Remote Care gives you a real-time view of your water system's performance and quality output, from anywhere at any time.*†

How does MyMilli-Q™ Remote Care support greater lab productivity?

- **Confidence & convenience:** Online access to real-time system information and water quality data
- **Maximal uptime:** Immediate and customizable alert and alarm notifications by email and/or text message
- **Time savings:** More rapid support from our service team and quicker solutions through remote diagnostics
- **Easier traceability:** Easy-to-find data and quality reports simplify audit preparation and lab accreditation
