

MORE than sure

Comprehensive documentation
and support for EMSURE®
Classical Inorganics and Solvents

EMSURE®

The Premium Grade of Inorganics and Solvents

EMSURE® Documents & Support

Highly demanding applications often require enhanced support regarding supplier quality. For EMSURE® products, we offer comprehensive documents that go far beyond CoA or MSDS, and include important change agreements for critical product modifications.

Your advantages:

- Streamlined lab work
- Time and cost savings
- Superior comparability of results
- Certainty during product use
- Accuracy regarding impurities
- Confidence in analysis and production
- Transparency & security in demanding processes

- Change in test method (non-compendial)
- Change of primary packaging material

Please contact your customer service for further details.

EMSURE® is part of M-Clarity™

All EMSURE® products are part of the M-Clarity™ program and are classified to a minimum level of MQ300, while EMPARTA® and EMPLURA® are at level MQ200. This means you enjoy even greater support and transparency with EMSURE® products.

The M-Clarity™ Program

The M-Clarity™ Program includes the majority of our Life Science products classified into 6 MQ levels (MQ100 to MQ600).

- Each level provides specific documentation and services.
- The levels have increasing attributes to meet your application and regulatory requirements.
- Transparency allows you to select the right product for your needs regarding change control notifications and documentation support.
