

A REVOLUTION IN MEDIA PREPARATION

With the push of a button, the ReadyStream® system has revolutionized culture media preparation and dispensing.

Time savings

- **No autoclaving** as dehydrated media is gamma-irradiated
- **Pre-heated media** is instantly delivered at the temperature you specify
- 15 min to prepare up to **100 L of media**

Streamlined workflow

- **ISO compliant** GranuCult® culture media
- 10x concentrated media (3 L bag for **30 L media**; 10 L bag for **100 L**)
- **5-day shelf life** once media is rehydrated
- **Seamless connection** to Milli-Q® pure water system for water intake

Easy space integration

- Dehydrated media bags are **easy to carry and store**
- **Small footprint** avoids the need for a media kitchen and fits in a laminar flow hood

Ordering information

Product	Packaging	Ordering No.
ReadyStream® Media Bag GranuCult® Buffered Peptone Water <i>One bag for 30 L with a 3 L media bag (10x concentrated media)*</i>	10x Bags with dehydrated media*	5.74846.0030
ReadyStream® Media Bag GranuCult® Buffered Peptone Water <i>One bag for 100 L with a 10 L media bag (10x concentrated media)*</i>	3x Bags with dehydrated media*	5.74846.0100
ReadyStream® Filter Set	5x Filter sets	5.74826.0001
ReadyStream® System	1x	RDYSTRM01

*Bags are shipped with dry media who will be reconstituted with the ReadyStream® system. The 10x concentrated media allows to dispense up to 30 L of 1x media from the 3 L bag and up to 100 L of 1x media from the 10 L bag.

Preparation, Separation,
Filtration & Monitoring Products

REPRODUCIBILITY

begins with your water source

High-quality media requires high-quality purified water

So that you can focus on releasing accurate and reproducible analyses, the Milli-Q® IX pure water system ensures you always have the consistently high-quality pure water on hand to prepare your culture media.

The seamless connection between ReadyStream® and Milli-Q® IX systems can support your lab to...

Integrate preparation workflows

- Directly feeds ReadyStream® system
- Airtight tank of 25, 50 or 100 L

Assure water quality

- Regular recirculation through a bactericidal mercury-free UV lamp
- Constant, reliable purified water quality
- Compliant with ISO 11133 water specifications

Maximize space

- Compact and easy integration
- Under bench, on bench, or wall mount

Milli-Q®
Lab Water Solutions
