Product Specification

Product Name:

GenElute™ Bacterial Genomic DNA Kits – sufficient for 350 purifications

Product Number:

NA2120

TEST	Specification
-------------	----------------------

Suitability

Suitable

The average yield must be at least 70% of the average yield of the prequalified control solution.

Level of degradation seen pBR322 DNA isolated with test solution and digested with HindIII should be comparable to the control when examined by agarose gel electrophoresis.

Specification: PRD.0.ZQ5.10000067088
